

DOORCO
COMPOSITE DOORS

EDITION 3

Welcome to the DOORCO Composite Door

We are the manufacturer of the DOORCO composite door, which is designed exclusively for the UK market. The unique designs and construction have made it a door product of choice within the retail, new build and replacement housing construction sectors.

DOORCO UK is in a unique position thanks to our state-of-the-art automated production facility in South Korea, with which we work in close partnership. The DOORCO door offers a high level of security, with increased resistance to forced entry, and reinforced GRP skins as standard. It has passed the rigours of PAS 24 in line with Approved Document Q.

With DOORCO, the emphasis is firmly on choice with regards supply to our customers. Our UK distribution centre provides next day delivery on door blanks from stock. Our manufacturing facility offers a comprehensive range of designs, glazed or unglazed, and despatched from 3 days. This includes cassette and glass supply as well as bespoke paint options from our in-house paint lines.

DOORCOLOUR. YOUR CHOICE.

Door Style: Gleneagles
Door Colour: Caribbean Blue
Decorative Glass: Reflections

Composite Construction and GRP Skins

Our industry leading composite door slab has a reinforced GRP skin, manufactured in either a woodgrain finish to replicate timber, or smooth/etched finish to replicate aluminium. The composite door is all about providing kerb appeal, with minimal maintenance requirements. The construction of our door surpasses other alternatives, incorporating an LVL (Laminated Veneer Lumber) subframe to provide the strength and rigidity required for modern homes. The door protects the home from the elements, but will have minimal thermal expansion and contraction rates under extreme temperature variations which is perfectly normal. The PU foam core meanwhile reduces heat loss, providing a high level of thermal performance.

Choice of Glazing Cassettes

As door designs become more diverse, customers need a range of glazing cassette to suit any door in their home. DOORCO supplies the leading TriSYS® 3-Part glazing system from ODL Europe as standard. As an alternative, the high-end Inox cassettes are also popular and provide a stainless steel finish.

Glazing Service

Our in-house specialist team offers a bespoke service to pre-glaze doors using the TriSYS® or Inox cassette.

Decorative Glass

DOORCO work with large suppliers of decorative components to the glass and door industry and offers the widest range of traditional and contemporary glass designs, so our customers have infinite options for their front door. As well as being market leaders, innovation is key, with glass specifications providing the lowest U values of any decorative glass on the market; compliance with Document Q P1A (EN356) on Security Plus units, and the pioneering stainless steel Inox glass and glazing systems.

Prepping

DOORCO offers a full prepping service finished to stringent quality standards. We will prep for any lock and hinge combination available to the market, giving our customer ultimate choice.

Glass Colour Options

Certain glass designs lend themselves to colour co-ordination of the glass to complement or contrast your choice of door colour. These are indicated by the above symbol.

Caming Colour Options

Simplicity decorative glass is available in either Zinc or Brass coming to complement your door furniture and is indicated by the above symbol.

Bespoke Accessories

Painted matched drip bars, additional AV2 Heritage locks, spare paint pots, colour swatches or individual cassettes are all available to order.

Thermal Performance

Composite doors are much more thermally efficient than either timber or PVC, and our doors are manufactured to the highest quality standards, making them more thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than any other option on the market and our entire range meets with the requirements of the current Building Regulations.

There are various upgrades to the glass options which increase the thermal performance of the door to find the U-Value of your individual door set please visit the Buildcheck calculator which contains the current DOORCO door range.

Performance

Our door offers a truly appealing finish for the entrance of any home, with a high definition smooth or grained GRP outer skin which will look stunning for years to come. The door offers stability from the elements with its inner core of LVL encased with composite stiles and rails for protection against any water ingress. Our doors usually have a grained PVC edge to the hinge and lock side in either White, Chartwell Green, Anthracite Grey, stain or paint finish.

The inner core is manufactured from high density polyurethane foam, which offers exceptional thermal efficiency and will help to reduce energy bills in comparison with any other door on the market.

Colours

With our high-performance paint technology and two state-of-the-art, in-house paint lines, we can offer any colour door which can even complement the colour options on frames. This provides a fantastic choice for the home. In most cases the doors come in white as standard on the internal side, however, for your own individual requirements we may be able to offer different or bespoke options, see our colour ranges on page 14 for more information.

Security - Keeping You Safe

We take security very seriously so we invested some years ago in a new breed of composite door with significantly improved security features which stand up to current and future security standards, including PAS 24 in line with Approved Document Q for new build.

We recommend the use of multipoint locks as standard (locks should always be engaged so the door is not left just on the latch) and security hardware including TS007 high security cylinders and handle combinations and TS008 letterplates. On certain styles we would also recommend a multipoint slam shut lock with key entry plus security escutcheon, providing a traditional rim latch lock.

Note that slam shut locks should be used with caution as the operation of these may not suit certain individuals.

Glass units which comply with Approved Document Q must contain one pane of class P1A (EN356) glass, which must be 6.8mm, security laminated. This is available as an option on glass within our doors at a reasonable additional cost.

Glass and Glazing - Making a Personal Statement

The visual impact of your door is enhanced by the choice of glass within. Depending on the style, the units will be either a double or triple glazed unit. Glass units can be supplied with Warm Edge and a 'Low E' soft coat plus Argon gas filled. The TriSYS® glazing cassette system is re-glazeable and passes PAS 24:2016 security attack tests. For back door applications, you can even benefit from an integrated Venetian Blind, incorporating child-friendly, unobtrusive finger control and no loose cords.

Customer Charter

One of DOORCO's main objectives is to innovate, not just our products but our service too. The Customer Charter is about outlining the service, quality and commitments customers can expect from DOORCO, with clear service indicators that are easily measurable. It's about boldly stating our purpose of being the most helpful composite door partner in the UK.

We are **100% committed** to providing excellent customer service

<p>★</p> <p>WE PROMISE... 99% of our doors are in stock at any one time</p>	<p>★</p> <p>WE PROMISE... Doors are prepped and despatched from 3 days</p>	<p>★</p> <p>WE PROMISE... Free weekly deliveries*</p> <p><small>*Subject to minimum requirements</small></p>
--	---	---	---	---

The five-point charter represents the culmination of views about what's important to our customers across Distribution and Prepped Door Supply. It's about having the stock available on quick lead times, delivered efficiently by friendly and open staff. Consistently achieving this will result in the ultimate customer satisfaction we strive for.

We've talked for a long time about what makes DOORCO different, but the charter underpins this message.

Right from the word go, DOORCO impressed us with their 'open door' policy when it came to showing us what they could offer to support a customer of our scale.

John Whalley, Managing Director, Nationwide Windows & Doors

DOORCO is a brilliant supplier to work with. Deliveries are always as expected and if ever there is a problem, they'll tell you straightaway. They'll always do whatever they can to accommodate us with last minute orders.

Clare Formby, Assistant Production Planner, Total Glass

DOORCO go the extra mile for their customers.

Keith Sadler, Managing Director, VISTA Panels

Marketing Support

We have invested heavily in digital and physical marketing material over the last twelve months which means that we have a comprehensive suite of materials for you to use. This includes:

- > High quality brochure, colour swatch books and individual swatches for your sales teams to use to illustrate colours of prepped door slabs.
- > We also have a bank of digital images should you need these to add to your online door ordering systems or bespoke brochures which makes switching to DOORCO quick and easy. Door blanks for showrooms have 50% discount applied, max showroom door numbers per month by prior agreement.
- > If feasible, we can assist in development of integrated links from fabricators systems to our online ordering system.
- > A full range of high quality corner samples or door blocks can be provided to support your sales force or for use in showrooms. These can also be glazed to complement showroom visuals.
- > A bespoke colour swatch wall can be created using uniform door blocks and prepared in your individual selection of colours.

Design and View Your Perfect Door...

With such a wide selection of styles, colours, hardware and glazing options available for your new door, it can sometimes be difficult to visualise what you need. Our door designer lets you see just that and even lets you upload a picture of your home to see exactly how your choices will look in reality.

You're the Designer

Choose your style, then your colour, completely change the look with the various glazing options and then complete the look with your choice of hardware. Don't leave it to guesswork, we can show you exactly how your choices will look in your home with our online designer. We'll take you through the choices, upload a picture of your home and superimpose the door you have designed to ensure your choice complements it perfectly.

There are so many combinations that it's often difficult to know which ones are right for you until you see it in place. Make sure you make the right choices by designing your ideal door on our door designer.

Traditional Doors

The range of traditional doors are designed to replicate the most popular timber doors and come with highly defined mouldings and realistic wood-grain embossing on the surface. Whether used in a Victorian home, a modern townhouse or a farmhouse cottage, these doors always add to the appearance of the entrance.

These doors are transformed by the choice of decorative glass and colours, with 59 door colours available and a huge range of glass options, from the simple diamonds of Classic, through to the stunning multi-faced bevelling and black chrome caming of Reflections, these doors can make a real statement.

Contemporary Doors

A selection of modern styles are available using our non-moulded, woodgrain door blank or smooth/etched LINKS blank which perfectly replicates aluminium. With a wide selection of glass options, our contemporary doors are glazed using the TriSYS® cassette system as standard. For a more modern European look, choose our Urban or Inox doors using either the Urban aluminium cassette or the stunning Inox™ stainless steel frames. Many doors have multiple options to have cassettes placed in different positions, either left, right or centred, and are highlighted throughout the brochure.

Door Colour Options

Standard Colours

A range of 9 external colours with a white interior as standard. Coloured both sides is a cost option.

Premium Colours

Our range of 37 premium colours are created using state-of-the-art coating technologies as used in the yacht industry. The paint has been prepared to the recommended gloss level which range from a Semi-Matt, Satin or Semi-Gloss sheen dependent upon colour.

RAL Colours

Any RAL colour is available from DOORCO as a special order. Here are a small selection of the most requested colours as an example:

Door colours shown in this brochure should be used for guidance only. We have made every effort to match the colour and stain you see in the brochure so it's as close as possible to our paint when applied to the doors. Due to the nature of the product it is applied to, there is sometimes a difference between them which we cannot avoid. The colour, intensity and sheen level may differ from the paper print version and we do not accept any liability for this for whatever reason. To ensure that you are getting the right colour on your door, ask for your DOORCO colour swatch today.

Decorative Glass Options

Decorative Glass transforms doors and makes a personal statement and we offer a range of styles to suit all budgets and tastes from the contemporary to the traditional. All our decorative glass is manufactured to the highest possible standards and can come as Energy Plus incorporating 'Low E' glass and Argon gas to give a centre pane 'U' value of 1.1 and to ensure that all our doors meet Door Energy Rating level of B as a minimum.

Aurora

Aurora is modernity at its best. Using the latest weld-free cameing technology in stunning matt black, Aurora is a modern take on decorative glass which will complement any contemporary door.

Beaumont

The Beaumont is reminiscent of designs used in the Victorian period. It uses a combination of vibrant coloured glasses against a background of softly rippled glass, with blackened comes.

Bullseye

We have taken the traditional bullion and created a unit that is suitable for use in a modern door. With its deep, effective circular indentations, this will enhance any cottage style door.

Cascata

Inspired by the ocean and the ripples of moving water, Cascata is a truly modern take on patterned glass. Light shimmers off the undulations to create a stunning decorative glass.

Chelsea

Combining our soft acid etched Difuso glass with the deeper texture of the sandblasted design creates a modern, striking glass perfectly suited for contemporary doors.

See Page 73

Classic

Simple yet striking. The brilliant-cut and bevelled diamond shapes are set off against the subtly textured glass. A clean and simple design has proven to be one of our most popular designs.

Crystal Flowers

Crystal Flowers combines intricate bevel work and soft water glass against a background of obscure etched glass. The central flower motif will make a stunning focal point for any door.

Deco

Exclusively commissioned by glass artisans, Deco uses a sophisticated frosted backing glass coupled with clear dividing lines that create a simple, elegant and highly desirable contemporary design.

Designer Etch

The delicately shaped clear glass bevels glisten against the etched glass and create a look of understated and tasteful elegance.

Diamonds

A simple yet classic design that continues to be a favourite and complements anything from a country cottage to a smart town house. With a choice of either bevelled glass or six vibrant colourways, combined with a wide range of textured glass backing options, Diamonds is destined to become everyone's best friend. Available in: Blue, Green, Grey, Frost, Purple, Red or Clear Bevel

Dorchester

Genuine coloured Spectrum Glass with blackened comes combine to create this stunning leadlight design, reminiscent of the Victorian era. With Dorchester, you can now have all the benefits of traditional leadlights, with the performance and thermal properties you would expect in your door. Available in 3 border colours: Amber, Blue or Green

Eiger

This European style design is produced using high grade brushed stainless steel elements, that are bonded to the centre pane of glass. This combination provides a unique contrast.

Elegance

Create a timeless and stunning visual statement. Fluid lines, generous curves and inspirational design combine with extraordinary craftsmanship to produce an outstanding focus for your home.

Element

The bold rectangular bevelled glass pieces are set against a background of softly textured stippled and Chord™ glass to create the beautiful simplicity of our Element glass design.

Etch Squares

This European style design is produced using high grade brushed stainless steel elements, that are bonded to the centre pane of glass. This combination provides a unique contrast.

Flair

The sweeping polished zinc comes beautifully with the combination of the ever popular glue chip and Kasumi textured glasses to create a simple minimalist design option.

Finesse

The delicate floral motifs of the Finesse design, combined with the glistening multi-faceted jewels, are guaranteed to transform the entrance to your home.

French

The French range 'bozes' class with its elegant shape, beautiful curves and light refractive qualities and is rightfully one of our most popular options. The Turnberry door option also comes with the option of a coloured border which makes a dramatic statement in any home. Available in 4 border colours: Emerald, Onyx, Ruby or Sapphire

Greenwich

The concentric squares inside a band of sandblasted glass is a subtle take on our Tahoe design. The Difuso glass ensures high levels of privacy whilst maintaining light transmission.

GridLite Etch

Simulated divided lights create the look of individual panes of glass, whilst maintaining the performance benefits of a single double glazed unit.

Havana

A sophisticated, contemporary design incorporating various glass textures with clear 'came' lines. Havana is a twist on lineal Art Deco period style.

Horizon

Using the 'weld-free' chrome finish aluminium comes, combined with bevelled glass pieces and etched Millennium glass, Horizon is a truly stunning yet simple design.

Kensington

The Kensington range of glass is simplistic, but elegant. The clear border combined with satin centre allows just the perfect amount of light to flood through the entrance of your home.

Linear

Combining etched glass and clear brilliant cut lines, Linear is the epitome of contemporary minimalist style. The etched glass offers a high level of privacy in your home.

Masterline

A contemporary glass, Masterline has an almost industrial feel with its strong bold lines. It is particularly suitable for use in contemporary door designs.

Matrix

Laser-cut stainless steel elements incorporated into a modern, polished zinc design. The striking steel pieces are offset against a background of 'Rain' glass and small bevelled elements.

Milan

A modern yet understated, sleek decorative door glazing. A blend of deep cut glass bevels and 'reed' highly obscure backing glass combine perfectly to reveal an extremely alluring finish.

Millennium

Millennium is a totally different and modern way of adding obscurity to any door. Linear etched lines cascade down both sides of the glass offering a real depth and decorative dimension.

Murano

Inspired by the masters of elegance, the Murano 'boozes' Italian flair and charm. An imaginative fusion of linear motifs and bold sweeping curves, Murano is our most popular design. With the option of five colourways to complement your door colour, it creates a truly personal statement. Available in: Black, Blue, Green, Purple or Red.

Modena

A modern twist on a traditional technique, Modena combines hand-cut textured glass pieces, contemporary fused glass elements and polished zinc coming.

New Orleans

The complex bevelled design combined with stunning textured glass creates a design with undoubted kerb appeal and 'Wow Factor'.

Prairie

The purity of this linear range draws its inspiration from Frank Lloyd Wright. Hints of cubism come together with leading edge glass technology to create a wonderful multi-textured finish.

Quartz

A stunningly simple design, Quartz is created using hand cut glass centres, that are polished and bonded within a clear border. The contrast offers a beautiful combination.

Reflections

Stunning black chrome coming combined with satin and grey bevelled glass pieces, Reflections makes a striking statement encapsulated inside a double glazed unit for easy cleaning.

Richmond

The multi-width lines of Difuso soft acid etched glass contrast beautifully with the deeper texture of the sandblasting to create a truly modern design.

Roma

An imaginative fusion of linear design and bold sweeping curves. The Roma design with its sparkling glass bevels, are set against a background of etch-effect glass.

Simplicity

The epitome of minimalism and clean good looks. With polished zinc or brass* coming and an appealing multi-textured inset finish, this design looks at home in any setting.

Tacoma

Takoma is designed to focus on European styling that suits the door that surrounds them. Contemporary, clean, simple etched designs that have proved very popular.

Tahoe

By combining Fusion glass tiles with small stainless steel elements and etched glass, Tahoe is a strikingly modern glazing option that is ideally suited for contemporary doorsets. With a range of five colour options in the Fusion tiles, the glass can be manufactured to complement your door colour beautifully.
Available in: Black, Blue, Green, Purple or Red.

Trio Diamonds

The finest quality of hand crafted decorative triple-glazing with a contemporary zinc finish. Luxury crystal cut bevels are sealed securely between 2 panes of safety glass to ensure good looks for many years to come.

Yukon

Yukon is designed to focus on European styling that suits the door that surrounds them. Contemporary, clean, simple etched designs that have proved very popular.

Zinc Star

Simple in design, Zinc Art Star combines glue chipped star bevels with a zinc coming. The decorative bevelled elements stand out from the neutral obscure glass that surrounds them.

Clear or Obscure Glass Options

The majority of our door styles are also available in a standard range of 4 carefully selected Low-E toughened patterned glass options or Low-E toughened clear glass. (Laminated versions also available)

Minster

Minster pays homage to historic hammered glass and is most suited to period homes or more traditional door styles.

Pinpoint/Stippolyte

The timeless appeal of this stipple effect glass makes it one of our most popular options. The surface texture offers very high levels of obscurity and the design suits most door and house styles.

Rain/Cotswold

A more heavily textured pattern resembling water cascading over a surface. It is one of our most popular patterns and is especially suitable for doors that require higher levels of privacy.

Satin

Satin glass is an acid etched glass that offers high levels of privacy. It is a very neutral finish similar to sandblast and is ideal for use in both traditional and contemporary doors.

Decorative Glass Availability

With a multitude of glass designs, options and door styles to choose from, our decorative glass range allows you to personalise your home effortlessly.

Composite Door Sizing

Due to the number of PVC-u profiles available to produce our composite door, certain restrictions in size could apply. The sizes below are an estimation only of the typical range using a standard 70mm outer frame with a 50mm internal height and the definitive size range will be confirmed dependent on survey.

			Height with Standard PVC Cill	Height with Low Threshold Cill	Width
	Single Door	Minimum	2003mm	1983mm	823mm
		Maximum	2103mm	2083mm	1022mm
	Door with Single Composite Sidelight	Minimum	2003mm	1983mm	1278mm
		Maximum	2103mm	2083mm	1497mm
	Door with Single Glazed Sidelight	Minimum	2003mm	1983mm	1095mm
		Maximum	2103mm	2083mm	2145mm
	Door with Double Composite Sidelight	Minimum	2003mm	1983mm	1733mm
		Maximum	2103mm	2083mm	1972mm
	Door with Double Glazed Sidelight	Minimum	2003mm	1983mm	1368mm
		Maximum	2103mm	2083mm	3376mm

Technical Specifications

DOORCO 44mm Door

- > Grained GRP SMC skins are available in a wide variety of styles and colours including wood stains
- > Stiles and Rails are manufactured from a water-resistant polymer
- > LVL is used as the main internal reinforcement
- > Skins and sub frame are bonded with a Urethane Adhesive Resin
- > The door is filled with CFC-Free Polyurethane Foam density 44.5 - 45.5kg/m³
- > Superior heat and sound insulation
- > Complimentary choice of grained reglazeable cassettes
- > Centre Pane Value of approximately 0.44
- > Doors have exceeded the requirements of PAS24
- > Q-Marked with full manufacturing traceability

Glass

All the double and triple glazed units used in our doors are manufactured to the highest standard and come with internationally recognised accreditations for performance, strength and thermal efficiency.

High Performance Units

All units are made with toughened glass to comply with EN12150, the International standard for safety glass. All units are manufactured to the EN1279 standard for quality of seal and life expectancy and come with a manufacturer's 10 year warranty.

Thermally Efficient

All the standard glass units in our range have insulating features as standard. They are manufactured using Pilkington K low emissivity glass and the airspace is filled with Argon gas to give industry leading thermal efficiency. In addition, we only use warm edge spacer systems including Superspacer and DecoSeal.

Security and/or Safety Option

Most glazing options can be supplied with an upgrade where the outer pane of toughened glass is replaced with laminated glass which holds together when shattered.

Care and Maintenance

Your new door should keep safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

- > Door frames should be washed with warm soapy water, however stubborn stains can be removed using specialist PVC-u cleaners and by following the manufacturers' guidelines.
- > The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.
- > External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.
- > Hardware can be cleaned with a mild detergent and wiped clean. No harsh chemicals or abrasives should be used.
- > Maintenance of the door may be required to maintain any guarantees from the installer. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.

The DOORCO Difference

We're committed to maintaining a variety of choice when it comes to composite doors.

Innovation, thanks to our close collaboration with DOORCO Korea, is key to providing the biggest choice for our customers and ensuring we offer the largest range of composite door styles on the market.

Our products are fit and forget - the return rate for doors back once installed is less than 1% of total sales.

An approachable, open-door policy with customer-centric culture: customers can communicate with DOORCO staff at every level. No problem is too big or too small for our team.

Wherever possible, we come up with solutions to balance raw material and currency fluctuations, without simply passing on costs to our customers.

Significant investment has been made into DOORCO facilities, staff, IT systems, tooling and engineering, automation and marketing to ensure our strategic growth is managed.

Privately owned and proud to be independent.
